```kotlin
//Kotlin file: extensions.kt
package dev.school.extensions

fun String.duplicate(separator: String = ""): String
```

# Statically Resolved

## calling from Java

```
//Kotlin file: extensions.kt
package dev.school.extensions

fun String.duplicate(separator: String = ""): String

//Java
import dev.school.extensions.ExtensionsKt;

public class ExtensionsDemo {
    public static void main(String[] args) {
        System.out.println(ExtensionsKt.duplicate("Kotlin", "_"));
    }
}
```
